## KEY DIFFERENCES:

- **Operating System:** Galaxy S21 uses Android 11 with One UI 3.1, while iPhone 13 Pro runs on iOS 15, offering different ecosystems and app experiences.
- **Battery Life:** The Galaxy S21 boasts a 4000mAh battery, whereas the iPhone 13 Pro claims up to 22 hours of talk time, providing varying usage durations.
- **Operating System:** Galaxy S21 with Android 11, One UI 3.1 for customization; iPhone 13 Pro with iOS 15 for seamless Apple ecosystem integration.
- **Display Size:** Galaxy S21 features a 6.2-inch display for immersive visuals; iPhone 13 Pro has a slightly smaller 6.1-inch screen for a more compact feel.
- **Camera:** Galaxy S21's triple-lens setup (64MP, 12MP, 12MP) for versatile photography; iPhone 13 Pro's triple-lens setup (12MP each) optimized for Apple's photography prowess.
- **Processor:** Galaxy S21 powered by Exynos 2100 or Snapdragon 888 for smooth performance; iPhone 13 Pro equipped with the powerful A15 Bionic chip for Apple's signature efficiency.
- **Storage Options:** Galaxy S21 has 128GB and 256GB options; iPhone 13 Pro offers more options with 128GB, 256GB, and 512GB for varied storage needs.

## OVERALL:

The Samsung Galaxy S21 and iPhone 13 Pro shine in the battle of smartphones, but key differences lie in their operating systems and battery capabilities. For Android enthusiasts seeking a powerful device with customizable options, the Galaxy S21 is a solid choice. On the other hand, those deeply embedded in the Apple ecosystem may find the seamless integration of iOS and the robust battery life of the iPhone 13 Pro more compelling. Ultimately, the best choice depends on individual preferences and priorities.
